

Artisan Policies Guide

A practical reference for remakes, warranties, frames, shipping, specialty work, and support.

USE THIS GUIDE

Confirm the product, timing, original order details, and reason before submitting a policy request.

Final eligibility and credit approval remain subject to lab review and applicable vendor terms.

30 DAYS

LAB ERROR WINDOW

Measured from the order ship date

1 YEAR

DOCTOR REDO WINDOW

One eligible non-adapt change

\$4 / \$16

OUTBOUND SHIPPING

Next Day Air / 2 Day Shipping

30 DAYS

CHEMISTRIE DEFECT POLICY

Manufacturer or laboratory defects only

GUIDE MAP

Four pages, organized for quick decisions

- Page 1 - timelines, rates, and section map
- Page 2 - AR, scratch, doctor redos, and lab error remakes
- Page 3 - Chemistrie Clip, frames, and multiple-pair terms
- Page 4 - shipping, cancellations, VSP, specialty work, credits, and support

CRITICAL EXCEPTIONS

Set expectations before the order is placed

- Chemistrie Clip: no warranty or remake coverage for scratches, breakage, or loss.
- Chemistrie Clip: cancellations and returns are not accepted because the product is customized.
- Patient-owned frames are processed at the practice's risk and are not guaranteed by the lab.
- VSP Unity and outside-manufacturer programs can require separate authorization, returns, or documentation.

POLICY SUPPORT

customerservice@artisanlabnetwork.com

Contact customer service before submitting when timing, product, vendor, or eligibility is unclear.

Warranties, Redos, and Lab Errors

Use the original invoice, ship date, product details, and reason to identify the correct policy path.

01 | AR AND SCRATCH

Coverage terms by treatment

Covered Artisan AR and scratch warranty claims do not require lenses to be returned before the warranty is used. Vendor-specific programs may carry separate requirements.

Artisan Standard (AST)	1 year, 1 time
Azure, Nytopia, Emerald, Armour, Diamond Sun	2 years, 2 times
TechShield AR Technologies	2 years, 2 times
Tokai AR Technologies	2 years, 2 times
Crizal AR Technologies	2 years, 2 times
Shamir AR Technologies	2 years, 2 times
Hoya AR Technologies	2 years, 2 times
Factory Scratch Coat	1 year, 1 time
Diamond Defence (DDE)	2 years, 2 times
Mirror coating alone	1 year, 1 time
Mirror + Artisan Diamond backside AR	2 years, 2 times

CHEMISTRIE CLIP SCRATCHES ARE NOT COVERED. FULL PRODUCT POLICY: PAGE 3.

02 | DOCTOR REDO AND NON-ADAPT

One eligible patient-driven change within the first year

- Eligible changes may include design, power, PD, prism, frame, segment height, or another patient non-adapt element.
- Submit updated order details, patient initials, and the reason for the change.
- For an upgrade to a higher-priced product, the original invoice is credited and the new order is invoiced when shipped.
- Unity VSP doctor redos follow their separate 6-month coverage window.

03 | LAB ERROR REMAKE PROCESS

No-charge processing for a valid lab error reported on time

- A valid lab error request must be received within 30 days of the date the order shipped.
- Include a clear reason and the original order details so the lab can evaluate the request.
- If the request does not evaluate as a valid lab error, the customer's one-time remake is used.
- Return the lenses when requested for inspection and quality control.
- Requests outside the 30-day window require additional review and are not automatically eligible.

Chemistrie Clip, Frames, and Additional Pairs

Confirm customized-product terms and frame responsibility before placing or processing the order.

04 | CUSTOMIZED-PRODUCT POLICY

Chemistrie Clip Policies

Each clip is customized for the patient's frame. Verify the order and set expectations before production.

30-DAY DEFECT POLICY

Confirmed manufacturer or laboratory defects must be reported within 30 days of the order's ship date.

NO DAMAGE OR LOSS COVERAGE

There are no warranties or remake policies for scratches, breakage, or loss.

FINAL CUSTOM ORDER

Cancellations and returns are not accepted because Chemistrie Clip is a customized product.

ORDERING NOTES: No multiple-pair discount. Retrofit magnets are \$40 when applicable. Contact customer service before ordering if terms are unclear.

05 | FRAME POLICY

Manifest, suitability, and patient-owned frame responsibility

- A frame replacement request must include the frame manifest available on the Practice Resources page.
- PAL may decline a frame that is prone to damage or unsuitable for the prescription and lens order.
- Patient-owned frames are processed at the practice's risk. The lab is not liable for breakage during handling or processing.
- For orders more than 30 days old, patient-owned frames are not warranted or guaranteed; the practice is responsible for replacement if breakage occurs.

06 | MULTIPLE-PAIR PROGRAM

Eligible additional pairs ordered within 30 days

- Additional pairs purchased within 30 days of the original pair may receive 50% off the lesser-priced invoice.
- Each eligible pair must include AR treatment or polarization.
- There is no limit to the number of eligible additional lens pairs unless account-specific terms state otherwise.
- Neurolens, Chemistrie Clip, specialty jobs, and account-specific programs may be excluded or follow separate rules.

Shipping, Specialty Work, Credits, and Next Steps

Outside programs may add authorization, return, documentation, pricing, or lead-time requirements.

07 | SHIPPING AND CANCELLATIONS

Rates and production-stage billing

- Next Day Air: \$4 per job.
- 2 Day Shipping: \$16 per box.
- Inbound shipping is complimentary.
- The lab selects the outbound method based on job flow, volume, and delivery needs.
- A standard order cancelled after production starts is charged as an uncut; an unstarted standard order is not charged.
- Chemistrie Clip is customized and cannot be cancelled or returned.

08 | VSP AND SPECIALTY WORK

Separate program and partner requirements

- Unity VSP doctor redos have a 6-month coverage window.
- A new VSP authorization may be required for a Unity non-adapt reimbursement.
- Specialty, outsourced, out-of-range, or vendor-directed orders may use separate pricing, timing, and partner-lab policies.
- Customer service will confirm the applicable cost and estimated lead time before specialty work proceeds.

09 | MANUFACTURER CREDITS

Returns and documentation may be required

- Manufacturer or outside-lab warranty credits must meet that partner's requirements.
- A vendor may require returned lenses even when standard Artisan AR handling does not.
- Neurolens refund requests require returned lenses.
- Credit cannot be finalized until required returns and documentation are complete.
- Ask customer service which policy controls when standard and vendor terms differ.

SUBMISSION CHECKLIST

Include the information needed for a clear, timely review

- Original order or invoice number, patient initials, and ship date
- Product, lens design, treatment, frame, and applicable vendor or payer program
- Clear reason for the request and the exact change or defect being reported
- Updated prescription or measurements when the request is a doctor redo or non-adapt
- Photos, frame manifest, return authorization, lenses, or other documentation when requested

SUPPORT AND CONFIDENTIALITY

Need policy confirmation?

Contact customer service before submitting when eligibility, vendor terms, returns, or timing are unclear.

customerservice@artisanlabnetwork.com

Pricing, program terms, and customer-specific policy tools are confidential and should remain within the authorized practice team.
